

## DATA SHEET

### GripFactory SaniGrip Remover

GripFactory SaniGrip Remover is an absolutely safe, thin, pH-neutral and water-washable water-based remover. It is suitable for removing GripFactory SaniGrip from almost all surfaces in one step. It contains no acids or alkalis, no NMP and no biocides or preservatives.

#### Characteristics

GripFactory SaniGrip Remover is a water-based cleaner. It is completely harmless to humans and the environment, is free from leach and acid and therefore pH neutral. It requires neither R (isk) and S (afety) sentences nor any danger symbols. GripFactory SaniGrip Remover is non-flammable, can be washed off with normal water and hardly evaporates. GripFactory SaniGrip Remover is considerably more economical to use than conventional removers.

#### Operation Grip Factory Sani Grip Remover

GripFactory SaniGrip Remover requires no pre-processing or post-processing. GripFactory SaniGrip Remover can be used on almost any type of surface. Proper use will not damage the surface. Wood, stone, marble, etc. will not discolour and almost all types of plastic will not be affected. Metals can be affected. The correct exposure time is essential. The longer the Remover remains, the deeper it will penetrate into the top layer and (ultimately) into the lower levels.

#### Features

- Works within 30 to 50 minutes
- Contains no acids or alkalis and no (harmful) solvents
- No chemical fumes when applied and afterwards
- Has no MAC value
- Can be used indoor and outdoor without extra ventilation
- Easy in use

#### Suitable for the surfaces below

- Ceramic tiles
- Marble & Granite
- Porcelain & Enamel
